Strategic Priorities

1. Eliminate discrimination and advance equality
2. Tackle health inequalities for all patients, communities and the workforce
3. Ensure that there is high quality, person centred approach at the heart of everything that we do
4. Ensure there is a shared view of quality
5. Listen, involve and act on the views of the public and people who use services

Ambition
Ensuring a high quality health service for our local population, working in partnership to commission and deliver care which is safe and effective to improve health outcomes and change lives.

Our key system impacts
We will work in partnership to support the transformation ambitions of Nottingham and Nottinghamshire ICS through the delivery of:

1. Assess the impact and quality of new and existing services
   Continue to listen, involve and act on the views of the public and people, ensuring Equality & Quality Impact Assessments are integral to our system-wide plans and commissioning intentions

2. Identifying and reducing unwarranted variation
   Offer more creative approaches and support to people with learning disabilities and/or Autism (ASD)

3. Personalised care to become business as usual
   To empower and equip our workforce to provide care which is based on ‘what matters’ to people and their individual strengths and needs

4. Ensuring safeguarding is the golden thread
   Providing professional leadership and expertise as a statutory partner

5. Integrated shared approach to quality improvement & transformation
   Ensuring that the health, well-being and happiness of our workforce is at the heart of our programme of work

6. Leading Change, Adding Value
   Work towards the 10 aspirational commitments to support action of nursing, midwifery and care staff to help us focus addressing the Triple Aim and strengthen clinical leadership and partnerships

7. System Quality Narrative
   Work with partners to strengthen and align assurance and oversight

8. Build capacity and capability for improvement
   Support and develop a system quality improvement plan utilising a range of methodologies to create a learning & improvement culture
Quality Strategy 2019-2022

Improve choice and personalisation. 35% of women receiving continuity of the person caring for them throughout their whole pregnancy pathway, access to digital records and information, a reduction in the rates of stillbirth, neonatal death, maternal death and brain injury during birth by 20% by 2020/21.

Roll out of Enhanced Health in Care Homes, working with PCNs to share best practice and learning.

Implement and embed an EQIA Framework across Nottingham & Nottinghamshire working with ICPs to ensure all partners are able to contribute to Equality and Quality Impact Assessments.

Work with the ICS/ICP/PCN to embed the personalised care approaches as a key enabler to tackle health inequalities.

To work towards the 10 aspirational commitments to support action of nursing midwifery and care staff across Nottingham & Nottinghamshire.

Ongoing

Continued investment in community support so that by 2023/24 there is 7/7 specialist MDT service & crisis care to support people in their communities. Progress in implementing a full “Building the Right Support” provision: by March 2023/24 whereby inpatient provision will have reduced to less than half of 2015 levels.

To develop a commissioning toolkit for all commissioners, to support the CCGs to embed personalised care.

Work with NHS commissioned services/ICPs/PCNs to strengthen Quality Assurance & Oversight.

Improve performance against a trajectory for Annual Health Checks for people with learning disabilities.

Develop an aligned CHC strategy and process, outlining statutory CHC responsibilities to maximise integration and a person centred approach.

Consistent approach to safeguarding adults and children including the development and embedding of the new Mental Capacity Act Bill 2019 and Liberty Protection safeguards.
